Need Free Help With Your Computer?

Come see what CCS can offer you!

The Chicago Computer Society is “*Users Helping Users*”!

**Membership in The Chicago Computer Society brings you much more than just a membership card!
A CCS membership can be the **BEST** investment you’ll ever make!**

Meetings – Both general and focused club meetings are held throughout Chicagoland and Northwest Indiana. Attend as many meetings that interest you as you can! Ask your computer-related questions during **Open Forum**. Other attendees may have already experienced (and perhaps solved!) the same problems you are having and can provide the help you need. The **Main Presentation**, usually by a vendor or a CCS Member, typically covers hardware, software, services or other PC-related topics.

For the latest meeting information visit our Website at www.ccs.org.

eHard-Copy - The CCS Journal is an important membership benefit featuring reviews (many authored by CCS members) of hardware, software and books; information about CCS Special Events; PC industry news and trends; How-To guides, editorials and much more!

CCS Website (www.ccs.org) - Here you can view the latest information about CCS meetings including times, dates, topics and a map showing their locations; Special Events; Tips; eHard-Copy archives, special hotlinks and much more!

Special Vendor DISCOUNTS - CCS Members may be offered reduced rates on software and services!

CCS Help Line - This website feature is where Members can find other Members willing to help answer their questions via e-mail or telephone.

CCS Internet Discussion Groups – These CCS Members-only Internet message forums help facilitate communication both among the general membership and with CCS leaders.

The Chicago Computer Society is a 501(c)(3) educational, non-for-profit Personal Computer User Group with meetings throughout Northeast Illinois and Northwest Indiana. All meetings are open to the general public.

The Chicago Computer Society

Prairie State College Conference Center,
Vollmer & Halsted, Chicago Heights

Call (708) 895-5420 for more information

The Chicago Computer Society

CCS is the **RIGHT PC User Group for YOU!**

We are a **community of PC enthusiasts**, ranging from beginners to experts, banding together to learn, share knowledge and experiences and help each other solve problems in an ever-changing, complex and often bewildering world of PC technologies.

Are You Frustrated with Your PC? - Can't solve a tough hardware/software problem? Knowledgeable and friendly assistance may be only an e-mail message (CCS Yahoo! Groups), meeting (CCS Clubs and Special Interest Groups [SIGs]), mouse click (CCS Website), page (eHard-Copy) or telephone call (CCS Help Line) away!

Do You Enjoy Sharing answers and solutions with others? - CCS Members are happy to share the things we have learned through education and “hands-on” experience. **Let us help you** get the most value from your PC!

Do Your Interests cover a wide spectrum or are they tightly focused? - Whether your passion is hardware, software, services or other PC-related topics there may be a CCS meeting that covers it. If not, our Members often form new SIGs to meet their needs.

Do You Want to take a more active role in CCS? - Here are a few of the many ways you can actively participate: Write bylined articles for eHard-Copy; become a leader; ask and answer questions during meetings; be listed in Help Line, serve on a committee or help enhance and maintain our Website. Within CCS you'll find many opportunities to hone leadership skills employers value and receive peer recognition for your accomplishments.
